HUMANITARIAN ORGANIZATION FOR POVERTY ERADICATION
REGISTERED UNDER 1860 ACT

THERE IS NO WEALTH LIKE EDUCATION AND NO POVERTY LIKE IGNORANCE.

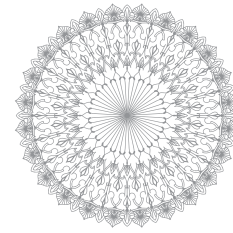

CHAIRPERSON'S MESSAGE

As Chairperson of HOPE, I am honored to contribute to an organization with a profoundly impactful mission of transforming the lives of ultra and vulnerable poor households. HOPE operates in 10 districts across Pakistan, reaching thousands of vulnerable youth and households through both financial and non-financial initiatives. Despite facing severe challenges, including catastrophic floods, economic instability, and political uncertainty throughout the year, HOPE has demonstrated resilience and a proactive adaptive approach through its policies and implementation approach. In this year, HOPE primarily focused on strengthening social capital by nurturing community institutions that are democratic, inclusive, values-driven, and sustainable. These efforts supported sustainable livelihoods and tackled systemic deprivations in rural areas of Pakistan.

MS. ASMA BIBI [CHAIRPERSON]

I am pleased to share the Annual Report for 2024-25, which outlines our organization's major achievements. We have reached 85% of our targets through the dedication of our team and strong leadership from our Chairman and Board of Directors. Key accomplishments include Girl's Education Movement, Gender Equality Awareness, Climate Resilience, Refugees Rehabilitation and Meaningful Partnership for mobilizing communities for grass root penetration. Thousands of Out of School Children sent to schools, empowered women by building capacity and financial assistance, motivated Youth to be skilled and uplift underprivileged communities. HOPE has developed curriculum for kids, youth and community leaders to know and cope up with disasters. We thank our donors and partners for their vital support, enabling us to provide various health services. With their help, we are ready to tackle future challenges and enhance our impact.

OUR PROGRAMS

VISION

To promote an inclusive society, enabling every individual to enjoy basic human rights irrespective of gender, race or religion.

MISSION

HOPE's mission is to promote empowerment, social justice and protect the fundamental human rights of vulnerable groups by advocating against Human rights abuses, supporting and building their capacity.

OUR PROGRAMS

AFGHAN REFUGEES PROGRAM

HOPE provides essential aid like shelter, food and hygiene kits to refugees and local communities in Pakistan, while also advocating for refugee rights in alignment with UNHCR-Pakistan guidelines. The organization focuses on empowering refugee women and girls through vocational training in craft making, enabling them to generate income and achieve self-sufficiency, with the local team assisting in product sales. HOPE's objectives include reducing gender discrimination, preventing gender-based violence, and offering protection and care for vulnerable individuals, particularly unaccompanied minors.

ASMA'S STORY

I remember the day I packed my whole life into a single backpack, tears streaming down my face. Each room in my home held memories and I took a moment to cherish them before saying my final goodbyes to my home, family and friends. It was so sad to leave my homeland. I could never imagine having to leave my entire life and everything that I worked so hard for to get out of the country. For many Afghans, leaving their homeland was the only option to seek refuge from the chaos and violence that engulfed their daily lives. Families torn apart, homes reduced to rubble and dreams shattered have become a sad reality for many. I am very grateful to the people of Pakistan, particularly HOPE Worldwide for helping us with all possible means like registration, shelter, financial help, psychological rehabilitation, educational enrichment and so on. Here I pledged that I will always do my best to raise Afghan girls' voices to the world and I will work hard for my dreams and have a bright future.

GIRL'S EDUCATION MOVEMENT

HOPE is empowering girls through education in Pakistan aims to transform lives in rural and urban slums where girls' education is undervalued. We provide education, raise awareness of their rights, and empower girls for a brighter future, breaking the cycle of Child marriage by fostering independence and securing their tomorrow. This year more than 1,500 girls students were sent to schools.

They were from our communities and had no opportunity to go to school. I felt a strong responsibility to teach them.

STREET CHILDREN PROGRAM

Children once trapped in child labor, street struggles, and daily survival are now stepping into classrooms with confidence and hope. Their dreams were buried under poverty... but today, they rise as students, achievers, and future leaders. This is not just a success story, it's a transformation.

From garbage dumps to graduation hall.

YOUTH DEVELOPMENT PROGRAM

HOPE's approach centers on gender responsive and youth inclusive industrial development, access to skills, technology and finance, promotion of entrepreneurship and leadership and integration of women and youth into industrial value chains.

STITCHING HER OWN FUTURE

Musarrat, a 19-year-old from Pakistan, faced a bleak future due to the high inflation, leading her to consider early marriage as her only option. In Pakistan, one in three girls marry before age 18, especially in KPK province, which has high rates of child marriage. This situation perpetuates poverty, with many young mothers and their children suffering grave consequences. However, there is hope through the HOPE's Youth Development Program. This initiative provides life skills training to youth, helping them envision a better future.

Musarrat participated in workshops where she learned sewing, allowing her to sell clothes and support her family financially while funding her education.

CLIMATE ACTION PROGRAM

Pakistan faces challenges in climate action due to high-emission sectors, political interests, industrial lobbies, and weak governance. Climate action can drive green growth and investment. HOPE has initiated multiple youth and professionals driven program to meet such challenges.

FROM IDEAS TO IMPACT

Today's youth generation is the biggest ever, with 2.4 billion children under 18 and 1.45 billion young people aged 18–29, representing nearly half the world's population. 63% youth are living in Pakistan, often facing conflicts and climate issues. They are crucial for climate action but face exclusion from decision-making, limiting their rights and effectiveness. Investing in youth leadership and participation is essential for both demographic growth and democracy, allowing youth to influence economic opportunities and climate policies. HOPE has enhanced youth engagement processes, contribution a little in the UN Youth 2030 Agenda.

PARTNERSHIP [INTERNATIONAL]

International partnerships are essential for achieving the Sustainable Development Goals (SDGs) by leveraging strengths from NGOs, governments, and the private sector for mutual benefits. HOPE has identified five partnership types: local implementation, resource mobilization, advocacy, policy development, and market-based operations. These partnerships also promote connections, behavioral changes, and empowerment for marginalized groups.

PARTNERSHIP [REGIONAL]

Peace could not be achieved without partnership. To achieve SDGs in 2030 regional partnership is essential utmost. HOPE is accelerating its program with 13 regional partners.

- Khilkhalta Gharana
- Women Shelter Organization
- Change Makers Initiative

IMPACT

Engaging and working with all societal sectors in a bottom-up approach (informed and supported by 'top down' experience, technology, finance and coordination globally), is a way of being far more deliberate and targeted in accelerating a society's 'natural' organic development process towards sustainability. HOPE is following the same.
